

Eastlake HIGH SCHOOL SAFETY CONTRACT AND POWER TOOL PERMISSION SLIP FOR Robotics and Shop Area

Student Name (Print): _____

1. I understand that eye protection needs to be always worn correctly in the engineering classroom without expectation.
2. I will always follow all safety procedures without exception.
3. I understand that loose clothing, loose jewelry, including rings of any kind, long hair (not in a ponytail), and neckties or hoodie drawstrings can be dangerous in the engineering classroom and should be secured properly.
4. I understand that Safety Signs are to be understood before using the equipment and the safety procedures are to be followed during its use.
5. I understand that protective clothing is an important part of engineering classroom safety and that shoes that cover the toes should be worn when working with metal.
6. I understand that horseplay is never allowed in the engineering classroom and can cause serious injury to myself and to other students around me.
7. I will report all accidents, no matter how minor.
8. I understand that cleaning the engineering classroom at the end of each class period is an important part of engineering classroom safety and I will participate at the end of every class or whenever needed.
9. I understand that all tools and equipment, metal, wood, and supplies are to be stored correctly and safety.
10. Parent/Guardian signature indicates the students can be trusted to use hand and power tools safely and grants permission for my students to learn about and use hand tools, power tools, and metal working machines with instructor supervision.

Failure to comply with this safety contract can and will result in school service, parent-teacher conferences, and/or loss of permission to use tools for safety and liability reasons.
